

INTRODUCTION TO DR. SAM OSMANAGICH'S LECTURE IN AUROVILLE

Good evening everyone and welcome to this event! It is my great pleasure to be here today and introduce to you Dr. Sam Osmanagich.

I come from Bulgaria and I first visited the Bosnian Pyramids in March this year. I was so moved and amazed by the level of energetic activity and by the effect this energy had on me and on other visitors that I subsequently visited 3 more times the complex, each time bringing with me friends not only from Bulgaria but also from Russia. Lastly, I attended the yearly Summer Solstice Conference organized by the non-profit foundation run by Dr. Osmanagich. At this conference Dr. Osmanagich had gathered 80 people coming from all over the world – ranging from the US to Australia, from Norway to Turkey.

I knew that Dr. Sam is planning a trip to India in September because he was invited to be a keynote speaker at the 9th Global Spiritual Congress held last week in Bengaluru. So, at the end of the conference in June I approached Dr. Sam and asked him if he is interested to visit Auroville and share his findings about the Bosnian Pyramids with you.

Now... what can we do together tonight? - Build a bridge between Auroville and the Bosnian Pyramids.

From one side we have Auroville – the city of dawn, where people from all over the world attempt to serve as a bridge between the past and the future, and most importantly, to be servitors of the divine consciousness. Because of this, according to me, Auroville is at the forefront of our global consciousness.

From the other side we have the Pyramids in Bosnia - they reveal to us an ancient civilization with their advanced knowledge. The builders of these pyramids knew our Planet better than we know it today, they knew how to build a pyramid so that it produces specific energy flows that are beneficial not only to humans but also to the entire Planet. You will hear more about this tonight. And because of this, this complex, according to me, is at the forefront of modern science.

So, both Auroville and the Pyramids in Bosnia challenge and elevate the level of consciousness of our current civilization. If we take as symbols the **pyramid** in Bosnia – the biggest and oldest in Europe, and the **sphere** – the golden sphere of Matrimandir, Auroville's soul, and we circumscribe the pyramid in the sphere and keep at the center the divine consciousness, well... then we have outlined a way, a path to achieving a new kind of expanded consciousness.

So, for this reason I was very happy when Dr. Sam agreed to deliver a lecture here tonight. I would like to express my gratitude to the East European Pavilion for undertaking the organization of this event and especially, to my dear friend - Tatiana from Bulgaria!

Dr. Osmanagich is a member of the Archaeological Society of Alexandria and a Foreign Member of the Russian Academy of Natural Sciences in Moscow. He is author of 14 books about ancient civilizations and pyramids around the world that are published in 17 countries. He holds a PhD degree about the Mayan civilization and he has taught at the American University in Bosnia and Herzegovina. *Without further delay, it is my pleasure to invite on stage Dr. Sam Osmanagich!*
