

INVITATION!

The famous Dr Sam Osmanagich is coming to Norway!

Sam Osmanagich is an author, has written 12 books and is a well known explorer and scientist from Bosnia. He is also called Bosnias «Indiana Jones» and his fabulous lectures is popular all over the world.

He will tell us about how he has been exploring and finding a new interesting understanding about our history and about the life in earlier civilizations during his travels, research and excavations. During his exciting lecture he will show us ancient monuments from previous civilizations, and of course he will show us the giant pyramids of Bosnia.

The pyramids are proven to be more than 30.000 years old – which really is a world sensation!

Dr Sam Osmanagich has a Phd in pyramids from the Maya Culture in Mexico. He is a brilliant speaker and his english is excellent and easy to understand. He is well known for his new and very interesting theories about our past.

Do we have to rewrite the historybooks we have in the schools today?

You don't want to miss out this opportunity!
